

Ability Tree First Coast believes it's important to promote inclusion in the community, and our *Mobile SensAbility Center (MSC)* is the catalyst to make this happen. Many special needs families want to be out in the community enjoying events and activities just like any other family. However, for someone with special needs, that stimulus can be overwhelming. Our MSC is a 20-foot trailer converted into an ocean-themed sensory room.

## The Purpose

The purpose of our MSC is to be a supportive space in the community where individuals with varying special needs can engage their senses. Benefits include:

- Providing a sense of security and calmness
- Increasing concentration and focus
- Developing the senses of sight, touch and hearing
- Providing mental and physical relaxation
- Decreasing aggressive behaviors
- Teaching cause and effect
- Promoting cognitive development
- Encouraging vocalization and communication
- Promoting social interactions
- Heightening awareness of the environment
- Improving coordination and gross motor skills
